

# Yousef Ahmed Abd El-Manam Ali

📍 Alexandria, Egypt   ✉ YousefAhmed365@outlook.com   ☎ (+20)1091070251   📺 in/yousef-ahmed-3a9a572a4   🌐 github.com/YousefAhmed-365

---

## SUMMARY

---

An entry level full stack (MERN) developer and a self-taught C/C++ programmer. My skills are mainly in problem solving, and the ability to adapt to various work environments. I also love exploring different fields of programming like game development and low-level assembly.

---

---

## PROJECTS

---

### Personal Portfolio

[yousefahmed-365.github.io/YousefAhmed-Portfolio/](https://yousefahmed-365.github.io/YousefAhmed-Portfolio/) • August 2024 - August 2024

• Made a personal portfolio to display my experiences, projects, and skills.

### Canvas Language

[github.com/YousefAhmed-365/CanvasLanguage](https://github.com/YousefAhmed-365/CanvasLanguage) • January 2024 - July 2024

- Developed an interpreter for a programming language that specializes in rendering graphics.
- Used my skills in C/C++ to write a Recursive Descent Parser.
- Maintained the interpreter and used a profiler to optimize it and track various kinds of bugs.

### Notes

[github.com/YousefAhmed-365/Notes](https://github.com/YousefAhmed-365/Notes) • August 2024 - August 2024

• Made a simple social media website in Laravel as a practice.
